Help in a time of need

Ezra Goldman has a great understanding of the legal process and was able to customize my client experience to my needs and resources. I was able to get the help I needed, to execute my case, in a specific and efficient manner. For this I am grateful and his service worked out exactly as I hoped it would.

A lawyer for the everyday person

Ezra is the lawyer you would want, from a traffic ticket to an estate question or defending you in a lawsuit. He is smart, articulate and very hands on. You will not be pushed off to an associate, Ezra will be with the client the entire length of the case.

Contract Case

Outstanding Attorney. Ezra defended me during a hard fought federal suite brought on by a very confused medium sized company. He came on board in a very short amount of time, shielded me from their legal actions and got them on the run. All the time he was straight forward with me. Out come was a dismissal. I am very much in debt to this man and would use him or recommend him to anybody that needed legal help. Thanks Ezra for everything.
